I have already had Sue G and Norman double check these all for me now. The EDDs are already created. I will work on the supplemental report.

Should we have a 3rd set of eyes check these since they will start making decisions on this information? I'll also be asked how soon we can prepare the final report (supplemental report with attachment and new EDD).

Subject: daily for Lithium...complete

Added Lithium starting at HW27z. Sorry...made one earlier error...HW34a was reported as a No. It should have been reported as 87ug/L.
